DASHBOARD GUIDE:
OAKLAND PUBLIC SCHOOL REPORT CARD FALL 2017

www.ousddata.org

OAKLAND UNIFIED SCHOOL DISTRICT
Community Schools, Thriving Students

TABS
Click on tabs to navigate through each dashboard.

SCHOOL NAME

SCHOOL SELECTOR
Use the drop down menu to select a school.

REPORT DESCRIPTION
Gives information on what is in the report and how to read it.

OVERALL RESULTS
Results for all students.

ABBREVIATIONS

DETAILED RESULTS
Results for the different student groups at the school where the count of students is 30 or more. No student group results are shown for English Learner Progress.

NOTES & MORE LINKS

LEGENDS
Color is the combination of status + change to give an overall performance result. The shapes show how the status result changed from the prior year(s) of data.

RELEASE DATE
Version of California Department of Education California School Dashboard data that is included the report.

MEASURE DESCRIPTIONS
List of the measures in the report and how they are calculated.

STATUS YEAR
Gives the year from which the 'status' is taken.

TOOLTIP
Hover over any data point to see more detailed information about the results for that measure and student group, as well as the number of students (N) that contribute to the result.

MEASURE INFO LINKS
Use the links to view more information about each measure.

Spring 2017 Release

Anonymous Elementary

Select a School

[Anonymous Elementary ▼]

California recently developed a new way to measure school performance along a set of measures that includes both academics and school culture/climate. Below, the results from this system are shown for a selected school. Color indicates how well this school performed relative to other public schools in California, where blue is the highest performing and red is the lowest. Up and down arrows show whether the result increased or declined from the prior year, and an equals sign indicates no change. The Overall Results section shows results for all students and the Detailed Results section shows results for individual student groups. No result (a white circle) is shown when data are not currently available or when there were fewer than 30 students in a group.

Oakland Public School Report Card

Measure	Status Year
Academics English Language Arts (ELA) The state averages the performance of all students at a school on the Smarter Balanced assessment of English Literary Arts (administered in grades 3-8). A positive number indicates that the average student's score exceeded the standard by that number of points. A negative number indicates the number of points that the average student fell short of meeting standard. Schools scoring below standard should be closing the gap each year. Overall status and change are both factored into the color rating. Go to http://bit.ly/ousd_ai for more information on this measure.	2016-17
Academics Math The state averages the performance of all students at a school on the Smarter Balanced assessment of Mathematics (administered in grades 3-8). A positive number indicates that the average student's score exceeded the standard by that number of points. A negative number indicates the number of points that the average student fell short of meeting standard. Schools scoring below standard should be closing the gap each year. Overall status and change are both factored into the color rating. Go to http://bit.ly/ousd_ai for more information on this measure.	2016-17
Suspension Rate This indicator shows the percentage of students suspended from school. The goal is to decrease suspensions each year (shown by a downward arrow). An upward arrow means that suspensions increased over the last year. Go to http://bit.ly/ousd_sri for more information on this measure.	2016-17
English Learner Progress This indicator shows how many English Learners made significant progress in their language development or were redesignated as English-Language Proficient within the past year. This measure is only reported at the all students (overall) level. Go to http://bit.ly/ousd_elpi for more information on this measure.	2016-17

Overall

Academics ELA	Academics Math	Suspension Rate	English Learner Progress
═ (Yellow)	⬇ (Orange)	═ (Blue)	

AA - African American; AI - American Indian
MR - Multiple Ethnicity; PI - Pacific Islander;
SWD - Students with Disabilities; SED - So...
