

DASHBOARD GUIDE: OAKLAND PUBLIC SCHOOL REPORT CARD

TABS
Click on tabs to navigate through each dashboard.

SCHOOL NAME

REPORT DESCRIPTION
Gives information on what is in the report and how to read it.

SCHOOL SELECTOR
Use the drop down menu to select a school.

OVERALL RESULTS
Results for all students.

ABBREVIATIONS

DETAILED RESULTS
Results for the different student groups at the school where the count of students is 30 or more. No student group results are shown for English Learner Progress.

NOTES & LINKS

LEGENDS
Color is the combination of status + change to give an overall performance result. The shapes show how the status result changed from the prior year(s) of data.

RELEASE DATE
Version of California Department of Education California School Dashboard data that is included the report.

MEASURE DESCRIPTIONS
List of the measures in the report and how they are calculated.

STATUS YEAR
Gives the year from which the 'status' were taken.

TOOLTIP
Hover over any data point to see more detailed information about the results for that measure and student group.

Anonymous Elementary

California recently developed a new way to measure school performance along a set of measures that includes both academics and school culture/climate. Below, the results from this system are shown for a selected school. Color indicates how well this school performed relative to other public schools in California, where blue is the highest performing and red is the lowest. Up and down arrows show whether the result increased or declined from the prior year, and an equals sign indicates no change. The Overall Results section shows results for all students and the Detailed Results section shows results for individual student groups. No result (a white circle) is shown when data are not currently available or when there were fewer than 30 students in a group.

Group: All Students
Color Result: Blue
Status Level: Very Low
Change Level: Maintained

Status Value: 0.3%
 Prior Status Value: 0.3%
 Change Value: 0.0pp

SED

Academics ELA
This indicator measures the average performance of students in grades 3-5 on the Smarter Balanced assessment of English Literary Arts (ELA) in terms of scale score distance from meeting standards (distance from level 3 or DF3) and the change in the result from one year to the next. Note that it is not a measure of the % of students meeting proficiency on the test.

Academics Math
This indicator measures the average performance of students in grades 3-8 on the Smarter Balanced assessment of Mathematics in terms of scale score distance from meeting standards (distance from level 3 or DF3) and the change in the result from one year to the next. Note that it is not a measure of the % of students meeting proficiency on the test.

Suspension Rate
This indicator measures the rate of suspending students (in and out of school; one student suspended more than once is counted only once) and the change in this rate between the two most recent years of available data. *Note that an up arrow for suspensions corresponds to a worsening of suspension rates, not an improvement.*

English Learner Progress
This indicator measures the rate at which English Learners and students who were reclassified English proficient make progress toward English Language proficiency and the change in this rate from one year to the next. This measure is only reported at the all students (overall) level.

Spring 2017 Release

The results in this report were generated by the California (CA) Department of Education for use in the California School Dashboard (<https://www.caschoolsdashboard.org>) as a way to measure the performance of California schools along a set of multiple measures. This report was created on September 27, 2017. To find out more about this school go to <https://oaklandfinder.schoolmint.net/school-chooser>. Questions of feedback?
